

TRAUMATIC BRAIN INJURY LAWYER NETWORK

The following is a list of trial lawyers from various geographical regions throughout the country who concentrate major portions of their practice on the subject of traumatic brain injury, mild traumatic brain injury, acquired brain injury, brain injury, seizure disorders, concussions and the sequelae (conditions which result) from these disorders. These include but are not limited to neurological deficits, cognitive deficits, behavioral changes and psychological difficulties. In many cases there are overlaps between these problems; the challenge will be to determine which deficits are related to head trauma and which are related to other causes.

In the case of each of the individuals mentioned below, there has been demonstration of a level of competence such that we feel comfortable listing the individual here. You may certainly use the name of Casper & de Toledo LLC in Connecticut to explain your contact. Please note, however, that unless and until you have executed a written fee agreement with Casper & de Toledo LLC, we assume no responsibility for your representation, even though we may from time to time travel throughout the country assisting other lawyers in handling brain injury cases.
